

Access and Comfort

The Performer Chair by A-dec

**a dec[®]**

More choices, lower price, greater value.

Performer's thin-profile contoured backrest upholstery

Performer's optional narrow backrest

Performer's narrow backrest with optional slings

Hydraulic cantilever lift system

Programmable chair touchpad

The Performer® III chair offers more flexible choices, better access, and improved comfort—all at a price you can afford. And since Performer is designed, built, and tested by A-dec, you can also expect to get the most out of every dollar you invest.

Flexible choices for comfort and access

Performer's flexible options are designed to save you money. They're also designed to help you do better dentistry. The chair's thin-profile upholstery choices, for instance, allow you to lower the patient more, so you can bring your arms down to a more comfortable working position. For treating smaller patients and working direct, you can choose Performer's narrow backrest, which helps enhance your comfort by allowing you to move closer to the patient's shoulders during procedures.

Since patient's comfort is just as important as yours, Performer's backrest, seat, and toeboard are designed to cradle the patient and reduce pressure points. Performer is also available with slings, so you can choose the narrow backrest and still comfortably support most patients.

Backed by A-dec innovation and quality

With three backrest choices, two different mounting points for the delivery system, and a number of attachments, Performer offers you more innovative choices than any other chair in its price range. But most important, Performer is built to last. The chair includes the same hydraulic cantilever systems, for example, as Cascade® and Decade® Plus—two of the most popular chairs in dentistry. This proven system features lift cylinders built entirely by A-dec, so Performer operates quietly, smoothly, and dependably. Consider the rest of Performer's quality A-dec components, and you'll begin to discover a chair that's not only lower in cost, but also much higher in value.

For a closer look at the Performer chair, contact your local authorized A-dec dealer, or call 1.800.547.1883 for a list of dealers in your area.
