A-dec® 400
Chair and Options

CONNECT TO WHAT'S NEXT
A-dec+ | A-dec 500 Pro | A-dec 300 Pro
Contemporary luxury and proven reliability, together in one.

The A-dec® 400 chair marries form and function to benefit both you and your patients—with a distinctive design, optimal patient comfort, and uninhibited dental team access.

Thoughtfully designed and engineered with legendary attention to detail, the A-dec 400 chair delivers reliable performance at a beautiful price. Day after day. Year after year.
PURE COMFORT

Bring more relaxation to the treatment room

Patient comfort is essential to reducing anxiety. The A-dec 400 chair helps put your patients at ease, with pressure-mapped surfaces for support and smooth, quiet positioning for peace of mind.

VIRTUAL PIVOT
Synchronizes movement of the chair with the patient’s anatomy and movements.

TWO-POSITION ARMRESTS
Provide comfortable arm and elbow support with a robust, weight-bearing design for easy entry and exit.

TOEBOARD TILT DESIGN
Supports the patient’s lower legs to create a gentle cradling effect.

DUAL-ARTICULATING GLIDING HEADREST
Adjusts easily for optimal patient positioning.

RICH UPHOLSTERY
Includes sleek formed and luxurious sewn styles, in a wide range of designer colors.

optional lever release headrest shown
HEALTHY POSITIONING

Long-lasting comfort with less pain and fatigue

The key to daily productivity—and a long career—is being comfortable while you work. The A-dec 400 chair is designed to keep your movements fluid and your posture in healthy alignment. See why the smart ergonomics of the A-dec 400 are a smart investment in yourself.

ULTRA-THIN BACKREST

The slim, flexible profile allows you to tuck your knees under the chair and work in a healthy, natural position: legs under the patient, elbows at your side.

LOW BASE-DOWN POINT

Whatever your height, the A-dec 400 chair adjusts for perfect positioning. Roll in close to the patient, and enjoy excellent access to the oral cavity.

MINIMAL DISTRACTIONS

A-dec delivery systems position handpieces and ancillaries right at your fingertips—eliminating unnecessary motion to help you stay focused.
THOUGHTFUL DESIGN

Little details make a big difference

Every A-dec product is designed to help you work more easily and efficiently, while supporting safe practice. We control even the smallest details of the manufacturing process, to ensure years of hassle-free reliability and consistent performance—so you can always practice with confidence.

BUILT-IN INFECTION CONTROL

At the heart of the delivery system is a control block designed for patient health and trouble-free performance. Water circulates every time you activate a handpiece, minimizing trapped, stagnant water.

SELF-CONTAINED WATERLINE MAINTENANCE

A-dec tubing is made with AlphaSan® to protect against odor, foul taste, and deterioration. The 2-liter bottle’s internal pickup tube and quick-disconnect fitting make removal and replacement easy, while reducing the chance of cross-contamination.

VERSATILE POSITIONING

Our Radius® configuration accommodates both left- and right-handed doctors, with deliveries and support modules that rotate quickly and easily around the chair. Delivery systems can mount from the front of the chair, from the side or rear cabinetry, or the wall.
Add the A-dec 300 Pro delivery to futureproof your practice
Accessible, flexible, and evolved, the A-dec 300 Pro delivery partners seamlessly with your A-dec 400 chair. Enjoy powerful performance today, with the freedom to upgrade in the future. Adding the A-dec+ Gateway opens even more possibilities, by connecting you to the A-dec+ updatable software platform. As technology evolves, you'll have the digital foundation in place to grow your A-dec equipment.

OPEN PLATFORM
Easy to configure and customize now, and upgrade in the future as your practice needs grow.

PIVOTING CONTROL HEAD
Reduces hand strain and fatigue as you practice.

PUSH-BUTTON FLEXARM BRAKE
Conveniently lock-in the delivery system position at the desired height.

RESPONSIVE CONTROL
The intuitive Control Pad 5i shows just what you need to know in the moment, for streamlined control of your handpieces, integrated accessories, chair, and dental light.

CONNECT YOUR WAY
The A-dec+ Gateway connects via Ethernet or Wi-Fi. Register on the mobile app to have software updates sent directly to you via the A-dec+ Gateway, then install them when it’s convenient.

A-DEC 400 OPTIONS

DELIVERY SYSTEMS
Choose from eight ergonomic delivery options for your handpieces and accessories: A-dec 300 Pro Radius® or support chair-mounted delivery (Traditional and Continental); A-dec 300 Pro side delivery; or A-dec 500 Pro or 300 Pro cabinet-mounted 12 o’clock duo delivery.

DENTAL LIGHTS
A-dec 300 and 500 LED lights offer balanced intensity and a uniform light pattern without unwanted shadows. Touchless on/off sensor combines with touchpad control and auto on-off chair presets for multiple light-activation options.

CHAIR-MOUNTED ASSISTANT’S INSTRUMENTATION
Radius design, available in short-arm and long-arm styles with integrated control pad. Choice of single 3- or 4-position holder, or dual 2-position holder.

MONITOR MOUNT
Dual pivot arm includes pre-routed HDMI and power cables. Support-side monitor mount swivels 430° and pivots up to 85° to accommodate viewing from the seated and supine positions.

CUSPIDOR
Made of stain-resistant vitreous china. Rotates ±90° for better patient access. The timed cup fill and bowl rinse functions are programmable on the control pad.
